The four Reviews re-published by Messrs. Scott The four Reviews re-published by Messrs. Scort & Co., are generally considered as the Great Reviews, and Blackwood has been justly places in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate

The Bid for Annexation There is an old couplet that says 'a wise man only knows precisely the mode of acting folly wisely." That Mr. McClure is neither a wise man nor a good actor all who witnessed the performance in the theatre on Saturday evening will concede. The acting on the part of the company generally was splendid; the votaries of the comic and tragic muses who filled subordinate parts in the political extravaganza, gained more frequent and vociferous applause than ever greeted the most talented artists on the same boards, not excepting Charles Kean himself, but the hero of the play fell far short of the mark, and, save the clumsy plaudits that emanated from a few ugly looking "gods," his most tragic efforts failed to make an impression on any living creature present except a yellow specimen of the canine species. However, the audience, who had never witnessed a pantomime in this country, felt intensely grateful to the dramatis personæ for affording them so much amusement free of charge. There was a slight hitch when the curtain rose there was no bill of the play, no stagemanager, or prompter forthcoming to afford any clue as to what was to be presented, and presently it appeared that they were to be favored with Shakspeare's tragedy of Othello, as a stalwart individual resembling the Moor of Venice advanced to the footlights, but he had hardly addressed the "potent, grave and reverend seignors" when the beneficiary made his appearance on the stage and announced the programme, apologizing for the delay that had occurred, as he had been much disappointed by the non-attendance of several of the leading characters. We gave an elaborate criticism of the rich entertainment vesterday, but we have something more serious to deal with to day. We may quiz and ridionle the whole affair-and our best efforts will fail to convey an accurate idea of the truly farcical nature of the proceedings, but we have nevertheless the grave fact to dispose of that, in our midst are a certain class of menno matter how despicable we may think them-who, while professing allegiance to Queen Victoria, are rotten at the core, and disloyal to the flag that protects them, entertaining sentiments treasonable to the Throne and sountry, and consequently subversive of all good order and government. It will also go abroad that these individuals have held a meeting and openly passed resolutions breathing the seditious venom of their hearts, and holding out threats of severing the tie that binds them to the mother country, unless certain privileges (now beyond the hope of reach) be granted by the Home Government. We need not stop here to enquire who were the means of depriving us of the few representative privileges we possessed? and who brought about the pendingone-sided Union of the Colonies? The prime instigator of this disloyal movement can best supply the answer himself. With all the sacrifices imposed upon them the world be too late. country, unless certain privileges (now With all the sacrifices imposed upon them the people are content to accept the new regime believing that the waning interests of the two Colonies will revive under it, when the same turbulent and mischievous spirit is again found at work endeavoring to foster discontent, to create mistrust and to promote strife. The object in view is transparent strife. The object in view is transparent. Disappointed and chagrized at his political failure, the evil genius of the country is betaking himself to making bids for office in Yankeedom. Once the bitter opponent of our American neighbours, pluming himself in the self-consciousness that he had been the means of cradicating American and building up British sentiment in this Colony, he is now ready to destroy the structure be raised, and bids for annexation to the States. Let those who have allowed themselves to be duped by such balderdash as was uttered on Saturday evening, take heed of the words of an eminent writer and "beware of those demagogues who would telf them that they feel for them, but who would be the last to feel for them, but who would be the last to feel with them, when the consequences of their own doctrine shall arrive." The promoters of the late meeting know full well

SPECIAL TO THE COLONIST AND CHRONICLE

LAST NIGHT'S DESPATCHES.

Eastern States

The Commercial says the Assistant Treasarer has received orders from Washington, uspending the conversion of thirties into onds of 1865.

New York, Sept. 28-Stephens' headquarers were all bustle and activity yesterday. Important negotiations are pending, which when published will astonish the brothers nood. A nolle prosequi has been entered in the case of Roberts, Fenian Centre, and his ease has been dismissed.

Port au Basque, Sept. 28 .- There was an wful gale of wind, on Saturday, the 22nd, on the eastern coast of Newfoundland. A great many wrecks have been reported. A French frigate was lost at St. Pierre, and sev eral coasters were wrecked; over 150 dead bodies were picked up at St. Pierre, on Sunday, which were lost from different vessels. No further particulars have come to hand.

New York, Sept. 28 .- The St. Petersburg Bursen Zeitung says: all the preparations on the main-land, and the soundings in Behring's Straits for the completion of the telegraph, will be constructed over a distance of 30,000 miles beyond Renet; and lines will be finished from Grantry Haven to the Kenypack and along the valley of this river from Okaltz to Giershga, and perhaps even as far as Bekorled with the Anadyr line The cable between Grantry Haven and Snigawen, a distance of 700 miles, and that between Cape Spondery and Cape Tolsto, in the bay of Anadyr, will it is said be laid before the end of this month. American and Russian energy has been very quick in taking steps to complete the line which is to connect and hold together the nations whose new alliance although baptised in champagne, and her alded forth by fireworks, cunnot be regarded without a slight feeling of uneasiness by some of the westerly nations of Europe.

Chicago, Sept 29. - Since the completic of the Atlantic Cable, and the successful fishing up of the old one, whereby there are two cables in successful operation, the Russ sian extension of the Western Union Telegrahp Company has been regarded as a failure, even if it should be completed; because on account of the great length of time it will require to transmit messages, it can never compete with the Atlantic Cables.

New York, 28.—General Santa Anna has ocated his headquarters on Staten Island and has opened a regular business bureau for the transaction of matters looking to the delivery of Mexico from the French authority; he is occupied, so report goes, constantly with various people on that subject, and has enlisted the sympathies of the Fenian brotherhood. Col. Roberts, Gen Sweeny and other Fenian chiefs are zealous in the attachmen to his cause and are educating the Irish to that belief. Three large steamers have been nurchased for their use.

California.

San Francisco, Sept. 29.-The steame Julia, when leaving the wharf at 4 o'clock to-day for Stockton, burst her steam deum killing five of the crew and badly wounding the remainder, the purser and engineer; were

The Mass Meeting.

Victoria, V. I., October 1st, 1866. EDITORS COLONIST & CHRONICLE .- In thes days of public meetings with no legitimate object, I may say a very illegitimate one, I may be allowed to make a few remarks on Mr McClure's speech of Saturday evening at the Theatre. I allude to that at the close of the Theatre. Theatre. I allude to that at the close of the evening, after most of the audience had left. Mr McClure's proposition as to the desire for reciprecity with the neighboring States, and for a cheap and simple form of Government, no one could of course, impugn. But when he proposes to toward a petition to Her Majesty to return us Representative Institutions, I characterise such a proceeding as too tate; and that at this last stage such steps will be useless; and after our demonstrations and counter-demonstrations, our resolutions and counter-demonstrations, our resolutions and telegrams, and "yet another" I reassert

would be too late.

But when a gentleman proposes as an alternative to our geting representative insti-tutions that the Government be pleased to open communications with the Washington Government for the annexation of this Colony to the United States; I say that the argument is no longer not only useless, but persicious, and worthy of the highest blame. raise my voice against it, simply because it behooves every man to denounce such treatheir "three cheers for McClure." I trust they did not imagine he really has any con-scientious admiration of the States. Not so much as I have, by a very great difference. It is a mere play upon words—mere political

that their schemes, so far as accomplishing anything with the Home Government is concerned, are perfectly abortive, and will only incur ridicule, but what care they so long as it enables them to play their own cards at the expense of those who are will-eards at the expense of those who are willing to become their simple dupes. The British Government is free enough for Britons and British subjects to live under, and although the day may come when we may from considerations of policy become anintegral portion of the Great British North America Cadfederation, there is no desire here for republican institutions or republican taxation, and the disloyalists, if a great British will feel considerably small when they learn the true sentiments of the people.

Duration answer Mr. McClure seriatim.

But to answer Mr. McClure seriatim.

Some of Great British to cast of the colonies. She never has done so; of the recolonies. She never has done so; of the true falsity of the report, I may add that where land, even in the reserved section is required for agricultural purposes, and it is shown to the satisfaction of the Government, that the parties applying, desire to become aninthem against themselves. But to cast off such an unfledged banding as Vancour Island; to beg the when he positive cruelty, the second down that Great British, stripped of her hundred which I suppose is lurking in the same mind that Great British, stripped of her hundred by the power in Europe she now its! Why, Great British in them against themselves. But to cast off such an unfledged banding as Vancour Island; to beg the When her request was made to withen the request was made to withen the request was made to with the action of the Act. But as a further proof of the utter falsity of the report, I may add that where land, even in the reserved section is when the reserved section is the utter falsity of the report, I may add that where land, even in the reserved section is the utter falsity of the report, I may add that the relative to the parties of t by-play.

But, in Mr. McClure's estimation, any man who goes to the States for a livelihood, be-cause the most readily accessible, is just as unpatrictio as himself, and leave a govern-ment that allows some freedom to individual ment that allows some freedom to individual management. Because they have legislated wisely for themselves, if not too well for us, is a penniless man to go to Australia or Japan on leaving these shores? The remark is unwelly of answer.

No one can but deplote the one-sidedness No one can but deplore the one-sidedness of the scheme of union now forced on us. No one can hesitate in stigmatising as untrue, where not grossly glossed over, many mistatements emanating from the most eminent source in British Columbia; no one can but condemn our deprivation of representative institutions, and characterise it as retrotive institutions, and characterise it as retro-grade; no one can but lament the probable esults to this colony from such interested mismanagement, even as Australia (Vicresults to this colony from such remains an agement, even as Australia (Victoria) was set back five to ten years from the absurd land and squatting system at one time fife. But are we, as an alternative, to disseminate treason and further expose by the

seminate treason and further expose by the wish our own imbecility?
Why, look at the very supporters of this farago. Who were head and foremost of the famous mass meeting of forty persons who instructed Mr. McClure to act as mouth-piece of the colony, and he ushored in the pernicious separation of the colonies: Why, three out of the very men were again present as mighty Jack-in-the-tox at Saturday's meeting. What respectable movers and seconders of resolutions were these? Was not their absence extremely significant? The only one that did speak administered a scathing rebuke. The big Willis Bond had good feeling enough to be on the right side and publicly to say so. I need not remark that some of the clique—the Volsci to this Coriolanus—from physical causes were perfectly helpless, or rather helplessly dark.

It is not my intention to touch on the ab-

helpless, or rather helplessly dark.

It is not my intention to touch on the absurdity of the panacea proposed—annexation with the United States. How ever good for them it would be anything but good for us. With full feelings of friendliness to the energetic neighbors brought on the tapis, nothing I could say need necessarily oftend; but the discussion would be entirely premature and illogical. While again stating as my only excuse for "tushing into print" a simple desire to discharge a duty,

I remain, etc.,

I remain, etc., EDWD. MALLANDAINE.

The Treason Spouters.

EDITORS COLONIST AND CHRONICLE.—As one of the spectators of the noisy farce enacted in the Theatre, on Saturday evening, I must enter my protest against such meetings as that, being considered to represent either the feelings or or printer of the reconstitutions of the recon acted in the Theatre, on Saturday evening, I must enter my protest against such meetings as that, being considered to represent either the feedings or opinions of the responsible portion of the inhabitants of Vancouver Island; the meeting was evidently got up, for the purpose of enabling Mr McClure to give utterance to entiments which were a diegrace to any person calling himself a British subject; and much more disgraceful as emanating from one who, as a member of the late House of Assembly, took the oath of allegiance to that authority, which he now seems so anxious to disclarm. Not one fifth of the people who crowded the theatre, have any tangible interest in the community, and even with them, the good and loyal feelings evinced when Mr McClure uttered his seditions sentiments, ought to have satisfied that gentleman that be could never persuade the people of Victoria that trenson was right, or traitors honest men. With respect to the way in which the proceedings were conducted, the less said about it the better; I only hore the party who projected the meeting were gratified at the spectacle. Now I ask, to whom is more blame due for our present position than to rhat party in the House of Assembly of which the main speaker last night was one of the most noisy and factious members? which the main speaker last night was which the main speaker last night was one of the most noisy and factious members? Does he suppose that the report of the proceedings of that House have not had due weight in the passing of the Union Act? a body of men, arong whom were some who could not govern themselves, and whose language and demeanor were a disgrace to the people they so grievously misrepresented, must have had its due influence in curtailing the privileges of self-government, which he now pretends so bitterly to regret. Are we to suffer the one sided report published in the evening paper, to go forth as the deliberate expression of opinion of the inhabitants of Vancouver Island? I trust

inshed in the evening paper, to go that as the deliberate expression of opinion of the inhabitants of Vancouver Island? I trust not, and never I hope will Englishmen vol-untarily cast off that allegiance which is their proudest boast at the beck of a political charlatan, whose ambition for notoriety appear natan, whose amortion for notoriety appears to be the only ambition he is capable of feeling. I wonder whether Mr McClurz thought, that the people who heard him last night, that orgotten the part he played not so very long ago, and which in some degree contributions. long ago, and which in some degree contribu-ted to the present position of aflairs; has he done nothing towards increasing the burthens of the people which rendered the Union Bill necessary? If he had not represented or misrepresented affairs at home no Union would now be necessary; As for Mr McClure himself he is one who has added little to the himself he is one who has added interest the revenue of the Colony, less to the useful, and still less to the ornamental portion of it. So the sooner he betakes himself to that country where his hopes seem fixed, and relieves us of his presence, the better it will be for all is the numble opinion of your obedent servan

The Land Preemption Fallacy.

The Land Preemption Fallacy.

EDITORS COLONIST & CHRONICLE.—There are certain persons among us who have been very industriously incuicating, that the Preemption Proclamation has been withdrawn by the Government; and if the mewspaper reports be true, it has even been asserted as a fact in the House of Assembly. For these gentlemen to display such ignorance of facts, connected with the most important interests of the Colony does not redound much to their credit, but I cannot place their intelligence at so low an estimate, and am compelled to attribute it to a more unwortby motive—a desire to

estimate, and am compelled to attribute it to a more unworthy motive—a desire to mistead at the expense of truth.

The Land Proclamation of 1862, issued by Governor Douglas, has never been withdrawn, nor at all interfered with, except that small portion south of a line drawn from a point in the Shawnigan district, through the Sooke district, and this was done by the unanimous request of the Exploration Committee to His Excellency, to reserve that portion of the Island from the operation of the Proclamation until the auriterous nature of that section had been fully asserture of that section had been fully ascer tained. This action was taken by the com-mittee, and approved by the Governor to prevent would-be monopolists from appro-priating to themselves large tracts of land, priating to themselves large tracts of land, and thereby depriving the "poor miner" of a claim, except by purchase or lease from these liberal gentlemen! This is the head and front of the offence of the Government; and the two most active circulators of this false charge, were busy members of the committee when the request was made to withdraw that portion of the country from the operation of the Act. But as a further proof of the utter falsily of the report, I may add that where land, even in the reserved section is required for agricultural purposes, and it is shown to the satisfaction of the Government, that the parties applying, desire to become

MECHANIC'S INSTITUTE. - About 100 ladies and gentlemen attended the opening exercises at the Mechanic's Institute. Mr W. K. Bull filled the chair, and Mr W. C. Rhind presided at the piano. The programme, which was interesting and varied, was as follows: Address by President of the Institute, Mr D. M. Lang; Recitation, "Daniel Gray," J. W. Dissette; Glee, "Forgive, blest Shade," Messrs Emory, Bagnall nall and Redfern; Reading, "Bob Saw-yer's party," Mr Clark; Song, L. Franklin ; Recitation, "Battle of Ivy," Mr Redfern; Comic Song, (in character) Mr Callingham; Address by the president of the debating class, W. K. Bull; Duett, " Flow on, thou Recitation, " Address to a mummy," Mr Mallandaine : Glee, "Here's a health," &c.,

shining river," Messis. White and Redfern Messrs. Emory, Bagnall and Redfern; Recitation, "Old Letters," Mr. Havelock; Song, "Beautiful leaves," Mr. E. White; Recitation, "The Wolves," Mr. Dissette. The entertainment concluded with "God save the Queen," the audience rising to their feet and singing the grand old anthem with patriotic ANNEXATION OF CANADA.—From the United States Treasury department we (Hamilton Spectator) have received a printed copy

of a screaming farce lately performed in the House of Representatives at Washington, entitled "A Bill for the admission of Nova Scotia, New Brunswick, Canada," &c., written by one Banks, of Massachusetts. It has been performed or read twice, with great success, before the political jesters whose chief business it is to render themselves and their country ridiculous in the eyes of the world, and ordered to be printed. It has been printed accordingly-very neat ly printd too, and comes to us with the signature of W. E. Chandler, Assistant Secretary of the Treasury, upon the envelope. It is an inensely funny production and it is in all re- of annexing a feather bed belonging to of the author. If it emanated from any other source than the United States House of Representatives, we might think that the joke was rather an insulting one. As it is, however, we regard it as a very harmless attempt to make political capital, on the part of Banks, for the next election, and shall preserve his bill among our literary curiosities.

STARVING HIMSELF TO DEATH .- "Jim," the Cowichan Indian who was convicted of stealing clothes from the person of Robert Urin, the victim of the Pandora street murder, is literally starving himself to death. For nineteen days, up to yesterday, he had not eaten a thing. He was visited yesterday by Rev. Mr Browning, who prevailed upon him to take a little sugar. "Jim" says that his tum-tum is broken; that he was wrongfully convicted, and that all he asks is to be allowed to die. The wretched man is wasted to a shadow, and has become so weak that he can scarcely speak.

A LIBEL .- It is a libel to say that the Americans as a class are in favor of annexation. They are opposed to secession on prin ciple, and having had a pretty good idea after a four years' experience, of what civil war is, have no desire to see similar scenes (on a small scale) enacted here. In case of trouble with the disloyalists, the Americans may be relied on to at least stand neutral.

FIREMEN'S ELECTION .- The election for Chief and Assistant Engineers was held yesterday, and resulted in the return of John C. Keenan, the city's favorite fireman as Chief, and T. J. Burnes, present incumbent, as Assistant Engineer. The last-named received a majority of eleven votes over W. H. Thain. A jollification will take place at the Tiger House to-night.

APPOINTED-His Excellency the Governor has been pleased to appoint James Moorhead, Esq., to be a Supernumary Lieutenant in the Victoria Rifle Volunteer Corps, with the duties of Paymaster attached, on account of services rendered the Corps since its fomation-the appointment to date from yesterday the 1st inst.

The Saanich Case.

The enquiry into the charge preferred against Henry Williams as the perpetrator of he recent horrible outrage at Saanich was esumed yesterday in the Police Court.

Josephine Freddison, sworn .- Deposed am 13 years of age; I know the prisoner at the bar. On Tuesday morning last about 8 o'clock he came to the house and told the ittle boy to go out. He came to the closet where I was and I told him not to enter he said he would, and I became frightened. He then came in and seized hold of me; I called to my Ma, and he told me to be quiet or he would knock me on the head; with that he seized me by the neck and choked me with a handkerchief I had round my neck; he took

seized me by the feet and closed me with a handkerchief I had round my neck; he took me behind the closet and threw me down; he pulled up my clothes; I don't know what more happened. When I recovered my senses I was bleeding: I saw prisoner go away; I then got up and ran down to the garden where I saw my mother lying with her clothes tiod over her head. I untied her clothes; she seemed as if she could not speak, and I thought she was dead; I went up and hid for a long time behind a big maple log; afterwards I went back to the garden and saw 'ma' sitting up; she said she had been poisoned, and then she went to sleep; I sent a little boy for some water and bathed her and tired to bring her to, but could not; I saw my father when he came in in the ovening and I told him what had happened me. Mr Pitt and Mr Cornals were at the house on the morning her.

happened me. Mr Pitt and Mr Cor-nelius were at the house on the morning be-fore it happened, but left at 20 minutes to 8; they were not there since.

Daniel Freddison, father of the girl, testi-fied that he had been absent all day at work, and when he came home he found his wife and when he came home be bound as whe in bed insensible and with several bruises on her head; the girl then told him all that had happened, which he repeated to the Berch, adding that she told him prisoner had thrust some white powder like flour into her mouth.

The Magistrate—Prisoner, do you wish to constitute witness? puestion the witness?
Prisoner.—No, sir; he's a pretty good alker, that man is.

talker, that man is.

Dr Davie, jr., testified that le had examined the wife of Mr Freddison last Wednesday and found her suffering from concussion of the brain, caused by blows on her head and neck; witness also examined the girl, and found that she had been violated,

apparently within twenty-four hours.

A bright little boy, four years old, nephew of Mrs Freddison, gave some evidence very intelligently, but the Magistrate concluded not to receive it, as the child could not unerstand the nature of an oath. The prisoner was then sent up for trial.

UNION HOTEL, ESQUIMALT,-Mr John T Howard, late the well known and popular proprietor of the Royal Cak Hotel, has purchased the Royal Hotel property and has re-fitted the same under the name of the Union Hotel. The Union is furnished with every convenience for the accommodation of guests, and attached is a large bowling alley and billiard room. That the bar will always be found furnished with the best wines and liquors, the well-established reputation is a sufficient guarantee. "John" invites his

Taking this new view of the cause of ill health, his set himself to the task of finding out the means of ridding the circulation of all possonous or deteriorating matters, and after much study succeeded in propounding his celebrated outment and Pills. The former, when rubb'd upon the skin, relieves the local vessels of every taint and all disordered action, the latter repels every atom of corruptio from the general circulation.

Merkay A LASMAN'S FLOWDA WATER,—The Introduction of this healthful and delicate, perfure must inevitably render the inferior scented waters, manufactured from strong and impure essentiate oils, a drug in the market. Twenty years ago it took the place of the European extracts and essences, in the South American and West Indian markets, superseding every kind of Eau de Cologne. It was not a superseding every kind of Eau de Cologne, it is not flower, than that of any toilet article insue; and as a wesh for the teeth, and for the complexion (when diluted with water) it is unequaled. As there are limitations abroad, it is important to see that the name of Murray & Lamman, are embosed on the bottle and in scribed as heldel. For sale by all druggists.

WANTED. A GIRL TO DO GENERAL HOUSE WORK,

MRS. SUTRO, Pandera street.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the tubercles; for the scrofulous constitutions not only suffer from scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this tain in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, ariso from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undernined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it

AYERS Compound Extract of Sarsaparilla,

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the resence of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which mise from it, such as Eutertrive and Sain Disbers, St. Anthony's Fire, Rose, or Erystelas, Pumples, Temors, Tetter, and Sait Riecum, Scald Hand, Ringwoima, Rijermatism, Symhilting and Mercumal Diseases, Dropey, Dyspersia, Denility, and, indeed, all. Complants Blood. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can narely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vandities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they care the every-lay complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiceness, Heartharn, Hadache arising from a diseaselved Namech, Nusach, Indigestion, Pain in and Modud Inaction of the Bowels, Flattleeny, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness,

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superi-ority over every other medicine of its kind is too ority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community layer failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forzotten.

Beware of the San Francisco quacks and preceders, who, with bogus aworn to certificates, dupe the unwary. Some of the self-styled doctors, whose in times are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are thosentials, shownakers, newspaper certifiers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, out you will find their Medical Institutes in it, out you will find their former occupations in it. Look at the Directory for 1802 and 1863. The only way to avoid imposition is to make enquiry—it will cost you meding and any save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there a no safety in trusting any of them until you know who and what they are Dr Gibbon with altisp persons who any call at his office, of his ability to treat discusses that he proposes to core.
